

# TACHOGRAPH PROGRAMMER

## **Main Features...**

- ...Compatible with all electronic tachographs
- ...No need for rolling road upgrade
- ...Incorporates DETR approved clock tester
  
- ...In cab calibration and testing
- ...Upgrade capable for future tachographs
- ...Handy portable size
- ...Supplied with case, manual and cables
- ...Rechargeable battery
- ...Ten minute automatic shut down
- ...Clear, easy to read LCD display.

## **Multi-Lingual...**

Allowing you to select from English, German, French, Spanish and Swedish operating languages.

## **Tachograph Connections...**

Comes with a full range of cables and connectors. Supports information exchange using a K-line interfade, a CANbus interface or a serial attachment.

## **Compatibility...**

Works with all electronic tachographs...2400,8400, 8300, 1400 series (and 8900 speedometer)...1324, 1319, 1318, 1314 series and EGK-100 tachographs.

## **Calibration...**

Allows the setting of many factors within the tachograph...overspeed value, rev-recording bands, odometer value ignition on recording and others.

## **Bench Tests...**

Allows running of UK, German, French, Swedish or Custom bench tests - all semi-automatically.

## **Tests...**

Calculates the K-Factor test, displaying the correct DIL settings where appropriate.

W-Factor can be tested by either the Rolling Road test or the Fixed Distance test.

Also tests the accuracy of the tachograph's internal clock - by direct link or DETR approved clock tester.
